SUMMARY

Purposeful IT Manager with over 20 years of experience in managing and optimizing computer and network infrastructures, software development, and IT operations. Proficient in a wide range of technologies including HTML, CSS, PHP, JavaScript, SQL, and MS Office365. Proven ability to streamline operations, enhance user activities, and coordinate software tools for optimized company performance. Looking to use my extensive IT management ability to drive enterprise IT transformation initiatives for a company.

Work Experience

04/2012 – Present IT Manager

Pacoima

Nu Hope Laboratories Inc.

- Streamlines the company's computer and network infrastructures, enhancing software and user activities.
